INSURANCE BULLETIN 23-02

Health Insurance Rate Filings - Filing Dates for Plan Year 2024

Issued: April 11, 2023

The following Bulletin is issued by the Missouri Department of Commerce and Insurance (“Department”) to inform and educate the reader on the specified issue. It does not have the force and effect of law, is not an evaluation of any specific facts or circumstances, shall not be considered a statement of general applicability and is not binding on the Department. See § 374.015, RSMo (2016).

To: Health carriers writing health insurance or health benefit plan coverage in Missouri

From: Director Chlora Lindley-Myers

Re: Health Insurance Rate Filing Key Dates (2024 Plan Year)

This Bulletin provides notice to health carriers of key filing dates for health benefit plans that will be offered during 2024, as required by §376.465, RSMo (2016)¹, and 20 CSR 400-13.100. These dates are based on current federal guidance, and are subject to change.

For plan year 2024, the Department strongly encourages carriers in the individual market to assume that Cost Sharing Reduction (CSR) payments will not be made by the federal government, and to apply the CSR payment load only to Silver plans sold on the exchange. Furthermore, carriers are strongly encouraged to include in their actuarial memorandum the amount of CSR load included in the silver plan rates and the methodology for determining the load.

¹ All statutory references herein are to RSMo (2016) unless otherwise noted.

The Department will continue collecting information on the factors used in the pricing, including the actuarial value the companies calculate separate from the federal AV calculator, the induced demand factors, and the CSR load. Federal regulations and guidance indicate that these plan-level factors should not be based on ACA experience, either before or after the impact of risk adjustment². Instead, these factors, which constitute the AV and Cost Sharing Design of Plan (AVCDSP), item 3.3 in the Unified Rate Review Template (URRT) “may take into account the benefit differences and utilization differences due to differences in cost-sharing.”³ The allowance for risk adjustment, meanwhile, is intended to be market-wide, impacting only Worksheet 1 of the URRT. The plan-level factors should have a rational relationship to each other, as should the resulting AVCDSPs. (“Rational” takes into account the current environment of CSR loading.) Given the prevalence of platinum-level CSR plans in the silver metal level, it is anticipated that AVCDSPs for silver plans will be much closer to those for gold plans – potentially even exceeding the gold values – than they are to bronze plans.

Summary of Filing Timeframes for Plan Year 2024

<u>Type of Plan</u>	<u>Filing Timeframe</u>
Single Risk Pool – Plans in Individual and Small Group ACA markets	File between June 17, 2023 and June 21, 2023 to meet federal and state guidelines.
Transitional	File at least 60 days prior to use. Filings, which include finalized rates, that are submitted on or before August 16, 2023 will have their reviews prioritized. <u>Filings submitted later than August 16 may have reviews extend beyond the intended implementation date.</u>
Grandfathered	File at least 30 days prior to use.
Student Health Plans	File at least 60 days prior to use.
Other Health Benefit Plans (Dental, Vision, etc.)	File at least 30 days prior to use.

For additional detail regarding the timeframes in the chart above, please see the following sections.

Applicability

The purpose of this Bulletin is to announce rate filing timeframes for plan types subject to a determination of “reasonableness” pursuant to §376.465.7. For ease, this Bulletin will refer to the following plans as “Subsection 7 Plans”:

- “Health benefit plans” as defined in §376.465 (*excluding* plans sold in the large employer group market);

² Using the ACA experience naturally takes into account the morbidity of the population expected to enroll in the plan and/or differences due to health status, both of which have been specifically disallowed for several years in the federal guidance. See 45 CFR § 156.80, as well as <https://www.cms.gov/files/document/urr-py23-instructions.pdf>.

³ <https://www.cms.gov/files/document/urr-py23-instructions.pdf>

- Individual and small employer group plans subject to the requirements of the single risk pool;
- Student health plans; and
- Transitional plans.

Section 376.465 specifies the timeframes applicable to rate filings for all other health benefit plans including, but not limited to, grandfathered plans and excepted benefit plans.

File Rates for Individual and Small Group ACA Plans No Later than June 21, 2023

The Centers for Medicare and Medicaid Services (CMS), Center for Consumer Information and Insurance Oversight (CCIIO) designated Missouri as an “Effective Rate Review” state in 2017. To retain that status, the Department must ensure rate filings meet federal guidelines. This Bulletin serves to indicate that the Department intends to follow federal filing and posting guidelines to the extent possible under Missouri law.

For Plan Year 2024, proposed rates for Individual and Small Group ACA plans must be submitted to the Department no earlier than June 17, 2023, and no later than June 21, 2023.

Federal law exempts student health plans from the filing deadlines applicable to single risk pool plans. Likewise, federal guidance indicates that transitional plans have different deadlines than single risk pool plans. However, in order to comply with Missouri law, rates for student health plans and transitional plans should be filed with the Department at least 60 days prior to the proposed effective date.

Post Proposed Rates for Individual and Small Group ACA Plans – July 26, 2023

Current federal guidelines require “Effective Rate Review” states to post proposed rates for single risk pool plans no later than July 26, 2023. The Department does not intend to post proposed rates earlier than this date.

Optional Quarterly Rate Filings for the Small Group Market

Current federal law permits single risk pool plans in the small group market to adjust rates as often as quarterly. As Missouri law does not limit the frequency of rate filings, health carriers may submit quarterly rate filings for small group market plans.

- 2024 Plans: Health carriers should submit rate filings by June 21, 2023. Rate filings for subsequent quarters should be filed at least 60 days prior to the proposed effective date, as required by §376.465.

Transitional Plan Rate Filings

Missouri law doesn’t differentiate between transitional plans and other Subsection 7 plans. Therefore, transitional plan rates must be filed at least 60 days prior to implementation, and are subject to the same standards of review as other Subsection 7 plans. However, while current federal guidance for transitional health plans only requires rate submissions where the proposed rate increase exceeds the federally identified rate review threshold, under Missouri law all transitional plan rate changes must be filed with the Department, regardless of the magnitude or direction of the rate change.

Please note, for transitional plan rate changes that are less than the federal threshold, the Department will not require companies to also file concurrently with CMS per 20 CSR 400-13.100(8).

For Additional Rate Filing Guidance

General Instructions are available via the System for Electronic Rate and Form Filing (SERFF) for Missouri. Additional filing guidelines will be posted on the Department's website and updated as necessary.

Rate Filings for other Health Benefit Plans

For filing requirements applicable to grandfathered and excepted benefit plans that are not Subsection 7 plans, please see §376.465. For dental plans that a health carrier or licensed pre-paid dental plan intends to make available on the exchange, rates must be filed in accordance with §376.465, or thirty (30) days prior to the intended effective date.
