Sirs:

In accordance with your financial examination warrant, a full scope association financial examination has been made of the records, affairs and financial condition of

Fireman's Fund Insurance Company of Missouri

hereinafter referred to as such, as the "Company" or as "FFIC-MO." Its main administrative office is located at 777 San Marin Drive, Novato, California, 94998, telephone number (415) 899-2000. This examination began on December 16, 2003 and on-site fieldwork by examiners from the Missouri Department of Insurance was concluded on July 15, 2004. This examination was held open pending the finalization of the examinations of affiliated companies by the California Department of Insurance (CDI) on the above date as significant reliance was placed on the CDI examination.

SCOPE OF EXAMINATION

Period Covered

The prior comprehensive financial examination of Fireman's Fund Insurance Company of Missouri was made as of December 31, 1999, and was conducted by examiners from the State of Missouri representing the Midwestern Zone of the National Association of Insurance Commissioners (NAIC).

The current full scope association financial examination of the Company covers the period from January 1, 2000, through December 31, 2003, and has been conducted by examiners from the State of Missouri representing the Midwestern Zone of the NAIC with no other zones participating. This examination was done in conjunction with the examination that was conducted by the Missouri Department of Insurance of the Company's affiliate, American Automobile Insurance Company, and the examination conducted by the California Department of Insurance of Fireman's Fund Insurance Company, Associated Indemnity Corporation, San Francisco Reinsurance and Vintage Insurance Company.

This examination also included the material transactions and/or events occurring subsequent to the examination date which are noted in this report.

Procedures

This examination was conducted using the guidelines set forth in the Financial Condition Examiners Handbook of the NAIC, except where practices, procedures and applicable regulations of the Missouri Department of Insurance (MDI) and statutes of the State of Missouri prevailed. Significant reliance was placed upon the California

Department of Insurance examination of Fireman's Fund Insurance Company, its systems and controls, and the reinsurance pool.

The examiners also relied upon information supplied by the independent auditor, KPMG LLP, of San Francisco, California, from its audit covering the period from January 1, 2003, through December 31, 2003. This information included, but was not limited to, attorney letters, account analysis information, and internal control evaluations.

Comments-Previous Examination

Listed below are notes, comments, and recommendations of the previous examination report dated as of December 31, 1999, and the subsequent response or action taken by the Company.

Conflict of Interest

Comment: It was recommended that the Company ensure that conflict of interest statements are executed annually by all elected and appointed directors and officers.

Company's Response: Our practice was to solicit signed statements from directors, elected officers and certain key employees. Some employees, who are not considered key employees, were appointed officers of our companies to facilitate various forms filings. Since the Missouri Examiner-in-Charge has recommended that we change our practice, procedures have been established to solicit statements from all employees with appointed titles beginning with our 2002 annual distribution.

Current Findings: The Company provided completed Conflict of Interest Statements for all elected and appointed directors and officers for the years under examination.

Reinsurance

Comment: It was recommended that the Company develop and implement adequate procedures and controls to ensure that the contracting parties to the Reinsurance Agreement comply with its terms and conditions. In addition, the Company was directed to ensure that the overdue outstanding commission amount of \$78,798 was collected immediately.

Company's Response: Fireman's Fund Insurance Company of Missouri was compensated for the override commission receivable incurred throughout 1998. The override commission was erroneously booked to an incorrect account. Despite this, Fireman's Fund of Missouri had appropriate income given the nearly offsetting percentages of the override commission and management fee agreements. No income changes will be made for Fireman's Fund of Missouri 1998 results.

Current Findings: No problems were noted with the ceding commission calculations or payments during the current exam period.

The Company entered into various intercompany agreements including:

1. Type: Management Agreement
Parties: FFIC-MO and Fireman's Fund Insurance Company (FFIC)
Effective: March 15, 1992
Terms: FFIC agrees to provide FFIC-MO with all personnel, materials, facilities and services necessary for the Company to transact the business of insurance in Missouri, and perform all administrative and clerical functions with regards to investments and reinvestment of assets. The tax liability or refund due from or to each member of FFIC's insurance subsidiaries will be computed as if each member filed a separate stand-alone Federal return. All payments required pursuant to this agreement shall be made at the time, and in the amounts, such payments would have been required to be made to the Internal Revenue Service had each member filed a separate stand-alone return. However, final settlement shall be made within 90 days after the filing of the consolidated returns with the Internal Revenue Service.

INSURANCE PRODUCTS AND RELATED PRACTICES

Territory and Plan of Operations

The Company is licensed by the Missouri Department of Insurance under Chapter 379 RSMo (Insurance other than life) to write property and casualty insurance. As of December 31, 2003, the Company was only licensed in the State of Missouri.

FFIC-MO's parent, Fireman's Fund Insurance Company, plans to sell the Company. FFIC-MO issued its last new and/or renewal policies during the first quarter of 2002, and is currently in run-off. Through the first quarter of 2002, the Company wrote only private passenger automobile business in Missouri, marketed primarily through independent agents and direct marketing. The direct premiums written steadily decreased from a high of \$12.5 million in 2000 to a low of \$(6,883) in 2003. The Company ceded 100 percent (100%) of its direct written premiums to its parent, Fireman's Fund Insurance Company. This arrangement is described in the Reinsurance section of this report.

Policy Forms and Underwriting
Advertising & Sales Material
Treatment of Policyholders

The Missouri Department of Insurance has a market conduct staff which performs a review of these issues and generates a separate market conduct report. The last MDI Market Conduct Examination Report [#MO189-M59] dated January 21, 2000, was reviewed during the prior examination and no material discrepancies were noted.

REINSURANCE

General

The Company's reinsurance and premium activity during the period under examination are as follows:

<u>Premiums Written:</u>	<u>2003</u>	<u>2002</u>	<u>2001</u>	<u>2000</u>
Direct Business	\$ (6,883)	\$ 1,740,189	\$10,907,479	\$12,563,312

Non-Affiliates	<u>0</u>	<u>0</u>	<u>0</u>	<u>0</u>
Net Premiums Written	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 0</u>

Assumed

FFIC-MO assumes no reinsurance.

Ceded

Effective March 15, 1992, FFIC-MO entered into a reinsurance agreement whereby 100 percent (100%) of the Company's direct written premiums are ceded to its

parent organization, Fireman's Fund Insurance Company (FFIC). As compensation for the premiums ceded under this agreement, FFIC agrees to pay an override commission of 3.25 percent (3.25%) of direct premiums written.

Under a Management Agreement with FFIC, FFIC-MO pays FFIC 3 percent (3%) of written premium for various management services. (See the Affiliated Companies section of this report for details on this agreement.) The 3.25 percent (3.25%) override commission less the 3 percent (3%) management fee net to a 0.25 percent (0.25%) gross profit on written business for FFIC-MO.

The Company is contingently liable for all reinsurance losses ceded to others. This contingent liability would become an actual liability in the event that an assuming reinsurer should fail to perform its obligations under its reinsurance agreement with the Company.

ACCOUNTS AND RECORDS

Financial statements of the Company were audited by the CPA firm KPMG LLP, of San Francisco, California, for the years ending December 31, 2003, 2002, 2001, and 2000.

During the course of the examination, a review was made of the pooled companies' general controls over its information systems by the California Department of Insurance. As the result of this review, recommendations for improving the Company's

information systems controls were developed and presented to the Company by the CDI. The recommendations covered areas such as logical security, physical security and program changes. The Company should evaluate these recommendations and make appropriate changes to strengthen its controls over its information systems.

At December 31, 2003, Common Stock was reduced by \$334,608 to \$0, and Other Invested Assets was increased to \$334,608, due to a reclassification of the Allianz Cash Pool LLC investment. The Company reported its investment in the Allianz Cash Pool LLC on Schedule D, Part 2, Section 2 of the 2003 Annual Statement as a common stock investment. Per SSAP 48, *Joint Ventures, Partnerships and Limited Liability Companies*, the Company should be reporting this investment on the Annual Statement's Schedule BA as an Other Invested Asset. Based on a review of the Company's 2004 Annual Statement, it appears the reporting for this item was corrected in 2004.
