Assumed

The Company does not reinsure other companies.

Ceded

The Company has all of its reinsurance through Cameron Country Mutual Insurance Company (the reinsurer) under a single reinsurance contract for both fire and wind risks. The per risk excess of loss section of the contract has two layers. The Company retains \$10,000 per risk under the first layer and

\$110,000 per risk under the second layer. The reinsurer's limits are \$100,000 per risk under the first layer. Under the second layer, the reinsurer's limits are \$50,000 for commercial and confinement risks and \$250,000 for all other risks. The per occurrence limit regarding both layers is \$700,000. The reinsurance rate is 20.7% and 2.0% of net written premium for layers one and two, respectively.

The catastrophe excess of loss section of the contract also has two layers. The Company retains \$50,000 per occurrence under the first layer and \$1,050,000 per occurrence under the second layer. The reinsurer is liable for 95% of the excess, limited to \$950,000 under the first layer and \$1,000,000 under the second layer. The annual limit is \$1,900,000 under the first layer and \$2,000,000 under the second layer. Annual premium for the catastrophe coverage is \$.0688 per \$1,000 in force for layer one and \$.0413 per \$1,000 in force for layer two.

The contract also provides for aggregate excess of loss coverage. The reinsurer is liable for 95% of losses in excess of 75% of the Company's net written premium, with a maximum limit of \$2,000,000. The reinsurance rate is 2.0% of net written premium.

The Company participates in a contingent profit commission agreement as a part of the reinsurance contract. The commission is based on the number of years the Company has been party to the reinsurance contract and the five-year loss ratio of the Company. The contingent profit commission range is from 0% to 8% of written premium ceded under the contract.

The Company has a cooperative agreement with Cameron Country Mutual Insurance Company for lines of business other than fire and wind. The Company receives a 20% ceding commission for farm and homeowner's liability policies and a 12% ceding commission for general liability and inland marine policies.

The Company is contingently liable for all reinsurance losses ceded to others. This contingent liability would become an actual liability in the event that any assuming reinsurer should fail to perform its obligations under its reinsurance agreement with the Company.

ACCOUNTS AND RECORDS

The accounting records are maintained by the Company on a cash basis.

The Company's investments in two financial institutions exceeded the FDIC insurance limit of \$100,000. It is recommended that the Company maintain cash and cash investments balances at or below FDIC insurance limits or obtain additional insurance on the deposits, in compliance with Section 380.471 RSMo. (Investments).

Any examination adjustments to the amounts reported in the annual statement and/or comments regarding such are made in the "Notes to the Financial Statements," which follow the Financial Statements.
