Contract/Plan/State/County Package

CPSC_enrollment_YYYY_MM.zip

The State/County/Contract/Plan (CPSC) Enrollment Data package is a compressed file (using SecureZIP) consisting of the following files:

Read_Me_CPSC_Enrollment_2016.txt - this file

CPSC_Contract_Info_YYYY_MM.csv - data file (where YYYY = year and MM = month)

CPSC_Enrollment_Info_YYYY_MM.csv - data file (where YYYY = year and MM = month)

The CPSC_Contract_Info_YYYY_MM.csv file is a comma separated value (csv) text file containing descriptive attributes for every contract/plan combination that appears in the CPSC_Enrollment_Info_YYYY_MM.csv file.

The CPSC_Enrollment_YYYY_MM.csv file is a comma separated value (csv) text file contains the enrollment data for the month and year described in the file name for every contract/plan in every state/county.

Text values in the data files are surrounded by double a quote (") so that commas that are part of an organization name could be included. The data type of each column is shown in brackets ([]) below. The columns in each data file are described below, the column names are included as the first row of data:

CPSC_Contract_Info_YYYY_MM.csv Columns

Contract ID - [text] - The contract identifier

Plan ID - [text] - The plan identifier

Organization Type - [text] - The type of contract held by the organization with

CMS

Plan Type - [text] - The type of plan offered to beneficiaries

Offers Part D - [text] - "Yes" = offers Part D benefit, "No" = does not offer Part D benefit

SNP Plan - [text] - "Yes" = Special Needs Plan, "No" = not a Special Needs Plan

EGHP - [text] - "Yes" = Employer Group Health Plan, "No" = not an Employer Group Health Plan

Organization Name - [text] - The name of the organization

Organization Marketing Name - [text] - The name of the organization markets to beneficiaries

Plan Name - [text] - The name of the plan created by the organization

Parent Organization - [text] - the name of the parent organization for this contract

Contract Effective Date - [date/time] - the data the contract began with CMS (in mm/dd/yyyy h:mm format)

CPSC_Enrollment_YYYY_MM.csv Columns

Contract ID - [text] - The contract identifier

Plan ID - [text] - The plan identifier

SSA Code - [text] - The Social Security state/county code

FIPS Code - [text] - The American National Standards Institute (ANSI) state/county code

State - [text] - The two letter postal code for the state

county - [text] - The name of the county

Enrolled - [text] - Number of beneficiaries enrolled in the contract/plan/state/county (* = 10 or less)

These files contain data for the following organization types (where there are active contracts):

Local CCP

Regional CCP

MSA

PFFS

Demonstrations
National PACE
1876 Cost
HCPP - 1833 Cost
Employer Sponsored PDP
PDP

Special Notes:

(1) The privacy laws of HIPAA have been interpreted to prohibit publishing enrollment data with values of 10 or less. Consequently some enrollment data in this file have been set to blank because the enrollment was 10 or less.

(2) The enrollment data file contains more than 65,536 rows of data. This means that older versions of Microsoft Excel will not be able to import all of the data for viewing. All of the data can be viewed in Microsoft Access or in a statistical package, such as SAS.

(3) The enrollment data file lists enrollees by their legal state and county of residence; this is the county used for payment purposes. For example, an individual who moved from Baltimore to Los Angeles and enrolled in XYZ Insurance company of California would be paid at the Baltimore rate until the change of address was recorded in the Social Security system. Consequently, the XYZ enrollment records will include both the California counties in its approved contract service area as well as the counties throughout the United States where XYZ has enrollees.

Please note that enrollment in these out of service area counties is very often under 10, which leads to the suppression of the numbers. This file does not indicate which counties belong to the approved contract service area of a Medicare Advantage organization and which counties are outside of its service area. You may refer to the Medicare Advantage county service area file, which is available as a separate download, to identify the approved contract service areas for these organizations.

(4) Pilot contracts are excluded from this file. The aggregate enrollment for these contracts is available in the Monthly Contract and Enrollment Summary Report.
