

HEALTH INSURANCE SHOPPING TOOL

There is more to shopping for health insurance than just finding the lowest premium. What you pay each month for health insurance (the premium) is important, but it's also important to understand what the policy will cover.

A policy with a lower monthly premium seems like a better deal. But, a lower monthly premium could also mean you'll have less coverage — or that you'll pay more out-of-pocket for your health care, maybe when you least expect it.

This three-part tool will help you compare health insurance policies and find the policy that best meets your needs.

Part 1: Identify your current health care needs - doctors, services, and prescription drugs. Keep these in mind as you compare health insurance policies.

Part 2: Compare health insurance policies. One of these might be your current health insurance policy.

Part 3: Compare the costs. Think about the out-of-pocket costs you may have to pay when you need care as well as the monthly premiums.

PART 1 - INFORMATION THAT IS IMPORTANT TO ME

Who will this health insurance cover? (Circle one)	Just me	Me and my spouse/partner	Me and my family (including dependent children)
---	---------	--------------------------	--

A list of my health conditions (and those of family members the policy will cover). These are called pre-existing conditions.

List the health care services or prescription drugs regularly used or needed.

Do you or your family have a doctor(s) you regularly see? Do you have a hospital that you prefer to use?

Doctor(s): _____

WHAT DOES THIS POLICY COVER?

Ask if these services are covered AND what you'll pay out-of-pocket. The out-of-pocket amounts you'll pay will be either co-pays (a dollar amount) or a coinsurance amount (a percentage of the cost, after the deductible is met). Some policies may also limit the number of covered visits or limit how much will be paid for each type of visit. So make sure you also ask about any limits.
