SCOPE OF EXAMINATION

The DIFP has authority to conduct this examination pursuant to, but not limited to, §§287.937, 374.110, 374.190, 374.205, 375.445, 375.938, and 375.1009, RSMo.

The purpose of this examination was to determine if the Company complied with Missouri statutes and DIFP regulations and to consider whether the Company's operations are consistent with the public interest. The primary period covered by this review is January 1, 2006, through December 31, 2011, unless otherwise noted. Errors outside of this time period discovered during the course of the examination, however, may also be included in the report.

The examination was a targeted examination involving the following business functions and lines of business: complaints, underwriting, and terminations for workers compensation policies.

The examination was conducted in accordance with the standards in the NAIC's *Market Regulation Handbook*. As such, the examiners utilized the benchmark error rate guidelines from the *Market Regulation Handbook* when conducting reviews that applied a general business practice standard. The NAIC benchmark for underwriting and trade practices is 10%. The NAIC benchmark error rate for claims practices is seven percent (7%). Error rates exceeding these benchmarks are presumed to indicate a general business practice. The benchmark error rates were not utilized, however, for reviews not applying the general business practice standard.

In performing this examination, the examiners only reviewed a sample of the Company's practices, procedures, products and files. Therefore, some noncompliant practices, procedures, products and files may not have been discovered. As such, this report may not fully reflect all of the practices and procedures of the Company. As indicated previously, failure to identify or criticize improper or noncompliant business practices in this state or other jurisdictions does not constitute acceptance of such practices.

COMPANY PROFILE

History of the Chubb Group

The following company profile was provided to the examiners by the Company.

The Chubb Group traces its origins to the partnership of Chubb & Son (an underwriting management organization founded in New York in 1882) and its successor Chubb & Son Inc. (incorporated under the laws of New York State in 1959) and since 1967 a wholly owned subsidiary of the Chubb Corporation. The Corporation was listed on the New York Stock Exchange in 1984, and ranks among the top 10 publicly traded insurance organizations based on revenues in the United States.

The principle property and casualty insurance company in the Group is Federal Insurance Company, a successor to the New York Marine Underwriters, which was incorporated in 1901. Federal Insurance Company is licensed in all 50 states.

Companion domestic property and casualty companies include:

- Vigilant Insurance Company (founded in 1939)
- Great Northern Insurance Company (acquired in 1960)
- The Pacific Indemnity Company and its 2 subsidiaries, Northwestern Pacific Indemnity Company and Texas Pacific Indemnity Company (acquired in 1967)
- Chubb Lloyds Insurance Company of Texas (established in 1973)
- Chubb Custom Insurance Company (established in 1980)
- Chubb Insurance Company of New Jersey (established in 1982)
- Chubb National Insurance Company (established in 1993)
- Chubb Indemnity Insurance Company (established in 1994)
- Executive Risk Indemnity Inc. and its subsidiary Executive Risk Specialty Insurance Company (acquired in 1999)

Originally Chubb & Son Inc. managed the property and casualty insurance companies within the Chubb Group. In 1998 the Federal Insurance Company replaced Chubb & Son, Inc. as the manager of the member insurers of the group.

The Group is engaged in full multiple line operations, including property, liability, marine, fidelity, surety and accident. Members of the group subscribe to virtually all rating and advisory bureaus. Each company has its primary purpose the writing of property and casualty insurance. Multiple companies afford the ability to provide specialized coverages and rates to our insured.

The Group employs some 10,100 people throughout North America, Europe, South America and the Pacific Rim. It is represented by more than 8500 independent agents and brokers worldwide. In addition to the headquarters in NJ, the Group operates from some 120 offices in 27 countries. There are two centralized claim service centers in the US, as well as claim representation in approximately 50 US branches. There are also claim offices in most overseas branches.

EXECUTIVE SUMMARY

The DIFP conducted a targeted market conduct examination of Great Northern Insurance Company. The examiners found the following principal areas of concern:

- ◆ The Company on 20 occasions had rating errors as a result of the incorrect calculation that did not encompass the premium discount amount, the expense constant, and the terrorism premium. As a result, the Missouri Second Injury Fund was overfunded and the policyholders were overcharged in their premiums for their active and non-active policies .

The examiners requested that the Company make refunds concerning underwriting premium overcharges and claim underpayments found for amounts of \$5.00 or greater during the examination if any were found.

Various non-compliant practices were identified, some of which may extend to other jurisdictions. The Company is directed to take immediate corrective action to demonstrate its ability and intention to conduct business according to the Missouri insurance laws and regulations. When applicable, corrective action for other jurisdictions should be addressed.

EXAMINATION FINDINGS

I. UNDERWRITING AND RATING PRACTICES

This section of the report is designed to provide a review of the Company's underwriting and rating practices. These practices included the use of policy forms, adherence to underwriting guidelines, assessment of premium, and procedures to decline or terminate coverage. Examiners reviewed how the Company handled new and renewal policies to ensure that the Company underwrote and rated risks according to their own underwriting guidelines, filed rates, and Missouri statutes and regulations.

Because of the time and cost involved in reviewing each policy/underwriting file, the examiners utilize sampling techniques in conducting compliance testing. A policy/underwriting file is reviewed in accordance with 20 CSR 100-8.040 and the NAIC Market Regulation Handbook. Error rates are established when testing for compliance with laws that apply a general business practice standard (e.g., §§375.930 – 375.948 and §375.445) and compared with the NAIC benchmark error rate of ten percent (10%). Error rates in excess of the NAIC benchmark error rate are presumed to indicate a general practice contrary to the law. Error rates indicating a failure to comply with laws that do not apply the general business practice standard are separately noted as errors and are not included in the error rates.

The examiners requested the Company's underwriting and rating manuals for the line of business under review. This included all rates, guidelines, and rules that were in effect on the first day of the examination period and at any point during that period to ensure that the examiners could properly rate each policy reviewed.

The examiners also reviewed the Company's procedures, rules, and forms filed by or on behalf of the Company with the DIFP. The examiners randomly selected the policies for review from a listing furnished by the Company.

The examiners also requested a written description of significant underwriting and rating changes that occurred during the examination period for underwriting files that were maintained in an electronic format.

An error can include, but is not limited to, any miscalculation of the premium based on the information in the file, an improper acceptance or rejection of an application, the misapplication of the Company's underwriting guidelines, incomplete file information preventing the examiners from readily ascertaining the Company's rating and underwriting practices, and any other activity indicating a failure to comply with Missouri statutes and regulations.

Workers Compensation Review

Reviews are conducted to confirm that workers compensation carriers that issue large deductible, non-standard policies, in addition to traditional workers compensation policies, are in compliance with the rate filing requirements found in §§ 287.310, 287.947, RSMo, and 20 CSR 500-6.950.

Workers Compensation carriers are also evaluated to ensure total premiums are being reported as well as correct methods for determining assessments and remittance of the required second injury fund and administrative surcharges. The review includes carriers' deductible policy forms and rules for compliance with § 287.310 Subsection 4, RSMo, regarding the presumption that a net reporting plan is offered unless the insured elects a gross reporting plan.

NCCI statistical data is reviewed to analyze utilization of Individual Rate Premium Modification (IRPM), also known as schedule rating, in the form of applied debits or credits. Schedule rating is intended to be used to accurately rate an individual employer's business operation. Descriptions of the risk categories are to be based on loss-related factors that can be objectively determined.

A. Forms and Filings

The examiners reviewed the Company's policy and contract forms to determine its compliance with filing, approval, and content requirements to ensure that the contract language was not ambiguous or misleading and was adequate to protect the insured.

The examiners discovered no errors during this review.

II. COMPLAINTS

This section of the report is designed to provide a review of the Company's complaint handling practices. Examiners reviewed how the Company handled complaints to ensure it was performing according to its own guidelines and Missouri statutes and regulations.

Section 375.936(3), RSMo, requires companies to maintain a registry of all written complaints received for the last three years. The registry must include all Missouri complaints, including those sent to the DIFP and those sent directly to the Company.

The examiners verified the Company's complaint registry, dated January 1, 2006, through December 31, 2011. The registry contained a total of three workers compensation complaints. They reviewed all that went through DIFP and one that did not come through the Department, but went directly to the Company.

The review consisted of a review of the nature of each complaint, the disposition of the complaint, and the time taken to process the complaint as required by §375.936(3), RSMo, and 20 CSR 300-2.200(3)(D) (as replaced by 20 CSR 100-8.040(3)(D), effective 7/30/2008).

The examiners discovered no issues or concerns.

III. CRITICISMS AND FORMAL REQUESTS TIME STUDY

Missouri law requires companies to respond to criticisms and formal requests within 10 calendar days. Please note that in the event an extension was requested by the Company and granted by the examiners, the response was deemed timely if it was received within the time frame granted by the examiners. If the response was not received within that time period, the response was not considered timely.
