Honorable Chlora Lindley-Myers, Director

301 West High Street, Room 530
Jefferson City, Missouri 65101

Director Lindley-Myers:

In accordance with your market conduct examination warrant, a targeted market conduct examination has been conducted of the specified lines of business and business practices of

Humana Health Plan, Inc. (NAIC #95885)

hereinafter referred to as HHP or as the Company. This examination was conducted as a desk examination at the offices of the Missouri Department of Commerce and Insurance (DCI).

FOREWORD

This examination report is generally a report by exception. However, failure to criticize specific practices, procedures, products or files does not constitute approval thereof by the DCI.

During this examination, the examiners cited errors considered potential violations made by the Company. Statutory citations were as of the examination period unless otherwise noted.

When used in this report:
- “Company” refers to Humana Health Plan, Inc.
- “CSR” refers to the Missouri Code of State Regulations
- “DCI” refers to the Missouri Department of Commerce and Insurance
- “Director” refers to the Director of the Missouri Department of Commerce and Insurance
- “NAIC” refers to the National Association of Insurance Commissioners
- “RSMo” refers to the Revised Statutes of Missouri

SCOPE OF EXAMINATION

The DCI has authority to conduct this examination pursuant to, but not limited to, §§374.110, 374.190, 374.205, 375.938, and 375.1009, RSMo.

The purpose of this examination was to determine if the Company complied with Missouri statutes and DCI regulations. The primary period covered by this review is January 1, 2013, through December 31, 2015, unless otherwise noted. Errors found outside of this time period may also be included in the report.
The examination was a targeted examination involving the following lines of business and business functions: health insurance in the areas of operations/management and claims.

The examination was conducted in accordance with the standards in the NAIC’s Market Regulation Handbook. As such, the examiners utilized the benchmark error rate guidelines from the Market Regulation Handbook when conducting reviews that applied a general business practice standard. The NAIC benchmark error rate for claims practices is seven percent (7%) and for other trade practices it is ten percent (10%). Error rates exceeding these benchmarks are presumed to indicate a general business practice. The benchmark error rates were not utilized, however, for reviews not applying the general business practice standard.

In performing this examination, the examiners only reviewed a sample of the Company’s practices, procedures, products and files. Therefore, some noncompliant practices, procedures, products and files may not have been found. As such, this report may not fully reflect all of the practices and procedures of the Company.

**COMPANY PROFILE**

The Company was incorporated as a for-profit corporation under the laws of the state of Kentucky on August 23, 1982, and it was first licensed to operate as a health maintenance organization (HMO) in Missouri on March 30, 1987. A wholly owned subsidiary of Humana Inc., the Company is the surviving corporation of mergers with three affiliated HMOs – Humana Health Plan of Missouri, Inc. (1987), Humana Health Plan of Kansas, Inc. (1988) and Humana Kansas City, Inc. (2001). During the time period of the examination, the Company’s service area encompassed the Missouri counties of Bates, Buchanan, Caldwell, Carroll, Cass, Clay, Clinton, Henry, Jackson, Johnson, Lafayette, Platte, and Ray.

**EXECUTIVE SUMMARY**

The DCI conducted a targeted market conduct examination of Humana Health Plan, Inc. The examiners found the following areas of concern:

**OPERATIONS/MANAGEMENT**

- The Company provided inaccurate autism data to the DCI. Reference: §376.1224.19(2), RSMo.

**EXAMINATION FINDINGS**

I. **OPERATIONS/MANAGEMENT**

The operations/management portion of the examination provides a review of what the Company is and how it operates.
NAIC Operations/Management Standard 18: All data required to be reported to departments of insurance is complete and accurate.

For the purposes of this examination, the examiners’ review for this standard focused on the Company’s filing of statutorily required autism reports. Pursuant to the provisions of §376.1224.19(2), RSMo, all health carriers and health benefit plans subject to §376.1224 are required to provide the DCI with the data requested by the DCI for inclusion in the autism annual report. In order to test the accuracy of the autism data reported, the Company was requested to provide data for policies and certificates in effect and data for medical claims and pharmacy claims for calendar years 2013, 2014, and 2015. The examiners compared the examination data received to previous autism data reported and found the following errors in this review.

Finding 1: The autism data provided to the DCI for the 2013, 2014, and 2015 annual reports was inaccurate.

Reference: §376.1224.19(2), RSMo.

II. CLAIMS

The claims portion of the examination provides a review of the Company’s compliance with Missouri statutes and regulations regarding claims handling practices such as the timeliness of handling, accuracy of payment, adherence to contract provisions, and compliance with Missouri statutes and regulations. For the purposes of this examination, the examiners restricted their review to claims dealing with benefits for autism services required by §376.1224, RSMo.

NAIC Claims Examination Standard 9: Denied and closed without payment claims are handled in accordance with policy provisions and state law.

To conduct the review for this standard, the examiners extracted from the claims data provided by the Company any claim lines with specific claim characteristics that indicated the claim was for autism services. From this set of autism claims, any claim lines that were denied or paid at zero were extracted. This resulted in a set of seven claim numbers. The examiners requested and reviewed copies of all seven claim files, and also requested and reviewed the Company’s standard operating procedures and claim processing manuals. The results of this review are summarized below.

III. CRITICISMS AND FORMAL REQUESTS TIME STUDY

This study is based upon the time required by the Company to provide the examiners with the requested material or to respond to criticisms. Missouri statutes and regulations require companies to respond to criticisms and formal requests within 10 calendar days. In the event an extension of time was requested by the Company and granted by the examiners, the response was deemed timely if it was received within the subsequent time frame. If the response was not received within the allotted time, the response was not considered timely.
