**Databases:** for data requests, contact the Statistics Section at 573-751-3163. Some data are available for a fee.

- *Medicare Supplement Experience Data*
- *Property and Casualty Supplement Data*
- *Missouri Zip Code data for homeowners/ dwelling fire, farmowners (dwelling only, mobile home, earthquake, and private passenger automobile insurance.*

Many reports, including this complaint report, are available at no cost on the DIFP website, at <http://insurance.mo.gov/reports/>. For paper copies, inquire with the Statistics Section at the above number.

## **DEFINITION OF TERMS**

**Indemnity Paid:** The sum of all payments made during the year for the benefit of insurance claimants, before reinsurance has been ceded and/or assumed. These payments include amounts paid in the current year for claims arising from coverage in prior years and exclude amounts which will be paid in future years for claims arising from the current year. Hence, this item is not a measure of the actual cost of current coverages, but only of current cash flows.

**Loss Adjustment Expenses:** The cost involved in an insurance company's adjustment of losses under a policy.

**Direct Premiums Written:** The dollar amount charged when a policyholder contracts for insurance coverage before reinsurance has been ceded and/or assumed.

**Direct Premiums Earned:** The part of premium attributable to the coverage already provided in a given period before reinsurance has been ceded and/or assumed.

**Direct Losses Incurred:** The sum of direct losses paid plus an estimate at the close of the year of the amounts to be paid in the future for all claims arising from the current and all prior years, minus the corresponding estimate made at the close of business for the preceding year. Incurred losses reported include estimated amounts unpaid for incurred-but-not-reported (IBNR) claims.

**Loss Ratio:** The dollar amount of direct losses incurred divided by the dollar amount of premiums earned for the particular line of business being analyzed, expressed as a percentage. This is an accounting representation of the portion of each premium dollar which is needed to honor a company's promise to pay claims.

## **LEGAL MALPRACTICE INSURANCE REPORT** **EXECUTIVE SUMMARY**

This report summarizes the legal malpractice insurance experience in Missouri from 2005 to 2014.

The charts, graphs and tables in this report are limited to closed claim information and were constructed from data collected by the Department of Insurance, Financial Institutions & Professional Registration as required by Section 383.077 RSMo. The premium and loss data, obtained from the Missouri Page 19 Supplement to the companies' annual statements are presented in the final section.

In 2014, the loss ratio for legal malpractice insurance in Missouri was 54 percent. For the 10-year period of claims closed<sup>1</sup>, 563 (24 percent) were closed with payment. Claims closed in 2014 totaled 213, a 19 percent decrease from the previous year. The average payment was \$171,181.

The cost to an insurer for settling legal malpractice cases (called loss adjustment expense, consisting of legal fees, claim adjustment costs and related items) has fluctuated over the past 10 years. In 2014, the average loss adjustment expense for all claims closed with payment was \$141,761 compared to \$81,383 in 2013.

Indemnity amounts are categorized by claim characteristics, including:

- Area of law in which the insured was retained by the claimant.
- Major activity in which the lawyer was engaged at the time the alleged error or omission occurred.
- Alleged error or omission that was the most significant reason for making the claim.
- The legal disposition of the claim at the closing date.
- The number of years the insured had been in practice at the time of the alleged error or omission.
- The relationship of the insured to the claimant.

---

<sup>1</sup> Claims closed may have resulted from incidents in any previous period.

By area of law, the largest share of claims closed in 2014 (47 of 213) was initiated by plaintiffs in *collection and bankruptcy*. The largest proportion of all claims closed in 2014 under the major activity code occurred during *commencement of action or proceeding*. Of all claims paid during 2014, 62 percent were settled *before trial or hearing* on the alleged malpractice.

Eighty-seven percent of losses in 2014 occurred among attorneys with *more than 10 years of practice*. The insured's relationship to the claimant is partitioned into four subclasses: *free legal service, non-client, member of pre-paid legal plan and client other than free service or prepaid legal plan*. Seventy-eight percent of 2014 claims occurred in the category of *client other than free legal service or member of pre-paid legal plan*.

Only 12 companies reported writing legal malpractice insurance in Missouri for 2014. Of these, the Bar Plan Mutual Insurance Company was by far the largest, with over 67 percent of the legal malpractice insurance market in this state.

This report was compiled using information submitted by insurance companies. As a result, the accuracy of this report is dependent upon the correctness of each company's data. Copies of this report will be made available in Braille, large print or on audio cassette upon request. Any questions regarding this report should be addressed to the Statistics Section, Department of Insurance, Financial Institutions & Professional Registration, P.O. Box 690, Jefferson City, MO 65102-0690.
