DEFINITION OF TERMS

Indemnity Paid: The sum of all payments made during the year for the benefit of insurance claimants before reinsurance has been ceded and/or assumed. These payments include amounts paid in the current year for claims arising from coverage in prior years and exclude amounts that will be paid in future years for claims arising from the current year. Hence, this item is not a measure of the actual cost of current coverages, but only of current cash flows.

Loss Adjustment Expenses: The cost involved in an insurance company's adjustment of losses under a policy.

Loss Reserves: An estimate of the value of a claim or group of claims not yet paid.

Written Premium: The dollar amount charged when a policyholder contracts for insurance coverage before reinsurance has been ceded and/or assumed.

Earned Premium: The part of premium attributable to the coverage already provided in a given period before reinsurance has been ceded and/or assumed.

Losses Incurred: The sum of losses paid plus an estimate at the close of the year of the amounts to be paid in the future for all claims arising from the current and all prior years, minus the corresponding estimate made at the close of business for the preceding year. Incurred losses reported include estimated amounts unpaid for incurred-but-not-reported (IBNR) claims.

Market Share: The dollar amount of direct premiums written by company divided by the total amount of direct premiums written industry-wide for the particular line of business being analyzed, expressed as a percentage.

Loss Ratio: The dollar amount of direct losses incurred divided by the dollar amount of premiums earned for the particular line of business being analyzed, expressed as a percentage. This is an accounting representation of the portion of each premium dollar that is needed to honor a company's promise to pay claims.

EXECUTIVE SUMMARY

Product liability insurance provides coverage for claims arising from the use, handling, or consumption of a product. The following report provides detailed information on specific characteristics of claim handling, claim costs, and profitability of this line of insurance.

This report has been compiled using closed claim data as reported under Section 374.415, RSMo, and the Missouri Supplement to Page 19 of the Annual Statement. As a result, the accuracy of this report is dependent upon the accuracy of each company's annual statement and submission of closed claim data. Future releases of these data may contain revisions.

Any questions concerning this report should be addressed to the Statistics Section, Department of Commerce & Insurance, PO Box 690, Jefferson City, MO 65102-0690. Emails can be addressed to Statistics@insurance.mo.gov.

CLAIM DISPOSITION AND CLOSE TIME REPORTING

This section is divided into two categories. The first section presents data by the final disposition of the claim. Claims settled without payment are reported as disposed in favor of the defendant, the insured. Claims closed in favor of the plaintiff, claimant, consist of all claims closed with payment. The second section presents closed claim data categorized by time intervals to claim resolution.

PRODUCT LIABILITY COMPANIES PREMIUM GROWTH & MARKET SHARE

(Derived from the Page 19 Supplement)

The tables in this section were generated by using the Missouri Page 19 Supplement data, filed for companies writing products liability insurance.

The first table presents data showing the percentage of change in growth for those companies who wrote premium during the year. The second table contains the market share, direct premium written, direct premium earned, direct losses paid, direct losses incurred, and a loss ratio. This table is presented by descending order of market share.
