*Average Projected Premium PMPM is an estimate of an average member's monthly premium. It is determined by the health carrier and reflects differences in plan pricing, types of plans selected, metal level enrollment projections, and age, tobacco status, and geographical location of the projected membership. As such, the changes in the average projected premium PMPMs from year to year may not be close to the average percentage rate changes shown. These estimates are projections made by the company about future behavior. This information is included in this table for informational purposes only and is not intended to be used by individual consumers in making decisions about plan selection and enrollment.
